A SUITE OF DATA COLLECTION APPLICATIONS

unitech
960 Series

[Quest Collect Lite.Net](#)

Quest Collect Lite.Net is an easy-to-use, cost-effective data collection system providing accurate, timely information for better business decisions. Quest Collect Lite.Net runs on a Unitech 960 Series or any Windows Mobile device.

Modules include [Receiving](#), [Item Transfer](#), [Shipping](#), [Inventory](#), and [Asset Audit](#). The software can be configured to activate all the applications or just certain components to fit individual requirements.

The Unitech 960 Series hand held terminal is a rugged mobile device designed to meet the demands of the various applications. The ruggedness of this unit boosts productivity and protects your purchase investment.

The Unitech 960 Series can withstand 4-foot drops to concrete is rated IP54 for water and dust contamination.

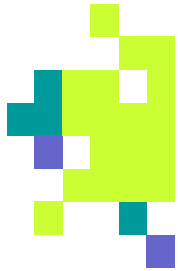

The flexible modular design, including bar code reading and keypad input, make the unit a perfect multi-functional terminal for data collection applications.

Item Transfer

Item Transfer module tracks warehouse items moving from one location to another.

Whether you transfer from your Receiving Dock to the warehouse, in-house transfers, or from your warehouse to the Shipping Dock, this transaction will keep your 'actual' Inventory up-to-date.

Data collected:

- ✓ From (old) Location
- ✓ Item Number
- ✓ Quantity Transferred
- ✓ To (new) Location

Report identifies inventory locations and items. All transactions are stamped with the Date and Time.
